FRANK A. ADAMS,

LEON E. KNOX,

HARRISON G. WALDRON,

Selectmen of Farmington.

SELECTMEN'S REPORT

THE OVERLOOK OF A YEAR'S WORK WITH RECOMMENDATIONS

At all times your board of selectmen is willing, even anxious, to give general or specific information to any interested constituent, yet the auditing of the town's books for the year just closed, which includes a thorough summarizing of the details of all transactions, impels us to place this foreword in your town report, that every citizen may become better acquainted with the survey of accomplishments and, in short, recognize what of recommendations we are able to make at this time.

However, before going into the subject further, we feel that it will be no misappropriation of your time to take space in saying that the year just closed has been an expensive one, with the repairing of highways and bridges contributing the greatest costs. In this work we have endeavored to be extremely economical, where economy was compatible with a character of permanency that was needed to save the town ultimate costs. Only in instances where emergency required immediate and final decision have we acted on initiative that was uninstructed by a vote of the town, and all realize that the scope of responsibility imposed upon an executive board of this kind cannot be fully anticipated by any precedents of history, for in these times every detail of a business transaction is likely to assume unlooked for aspects. In our adherence to instructed measures we have faithfully applied ourselves and we are convinced that no instance can be cited where we have exceeded our authority or misappropriated the confidence you gave us at the polls. We are grateful to

those who take an interest in our work and believe that everyone will acknowledge that no business, private or public, involving hundreds of thousands of dollars of transactions annually can be administered without vexing problems. However, we invite the exactness that is expected of our office and are pleased to confer with any citizen or group of citizens at any time.

With this explanation we are pleased to submit a few of the major items that have received our attention the past year, and to make a few suggestions which we feel justified in asking the town to consider.

At the last March meeting it was voted to build a permanent bridge to replace the old one, known as the Hayes bridge, and to run in debt for the same. We have carried out this instruction at a cost just under $10,000. Also we have made improvements on the main highway from the square to chestnut street, the state paying one-half the expense. Central street was very bad and that has been recovered at a cost of $5,000. No appropriations were made for these improvements, yet they were imminently necessary to prevent the costs of thorough reconstruction, and by their improvement at this time, the debt liability of the town has been increased only about $8,000, a very small amount compared to the cost if this work had been further postponed.

The bridge on the Tibbetts hill road is now the most dangerous of any in town and should be replaced with a permanent structure at once. We do not hesitate to recommend that this be done the present year and that automobile fees be used for this purpose.

Our highways in the outside districts have cost more this year than ever before, but they are now in better condition than for a long period, and we believe we are conservative in saying our entire highway system is in better shape than it ever has been.

As there is so much that must be done in regard to our bridges, we would advise not applying for state

aid on our roads this year. We think it would be better to set aside the $1,600 required by law for permanent improvement and next year do the same, making a total reserve of $3,200. By applying for state aid for both years, means that we would raise fifty per cent, or $1,600, making $4,800. If we were to do this, the state would give us twenty-five per cent of the whole, or $1,200, which means $6,000 for a new bridge next year, and by putting in one new bridge this year with the automobile fees, we would have two permanent bridges in two years by raising only $1,600 by taxation.

Taxes have been high; let us see how low we can make them this year. We cannot but feel grateful to the state, for it has used us exceptionally well, having given us for all purposes the past year the sum of $16,357.65.

For further details we respectfully refer the readers to the various schedules of the account to which this foreword is appended.

FRANK A. ADAMS,
LEON E. KNOX,
HARRISON G. WALDRON,
Selectmen of Farmington.
